HP Designjet Printers— Driving innovation in large-format printing for more than 30 years

For over three decades, HP has been in the business of providing innovation—transforming the way design professionals in Architecture, Engineering, Construction, Geospatial, and Graphics markets operate.

It all began in the late 1970s, with HP's first Pen plotter—and what's now become the industry-standard HP-GL Graphic Language. In the early 1990s, HP invented inkjet technology which was deployed to Designjet printers – making large-format printing in black-and-white easy, fast, and affordable. In that same decade, HP Designjet printers introduced color, higher printing speeds, and the ability to print high-resolution images and complex files in large format—helping portray information in architectural drawings more reliably than ever.

In the new millennium, HP Designjet printers brought faster printing speeds and fade-resistant UV inks, allowing Print Service Providers and Graphic Designers to create applications for both indoor and outdoor use. Photographers also adopted HP large-format printing to replace silver halide—demonstrating that HP Designjet printers can deliver superior image quality, with prints lasting up to 200 years.

In 2010, with the rise of mobility and globalization, HP launched the first generation of Designjet ePrinters with web-connectivity features—and the first multifunction large format ePrinter that offered copying, scanning, and printing capabilities in a single device. Using HP Designjet ePrint & Share, AEC professionals are able to access, view, and print projects wherever work takes them.¹

Up until today, more than three million HP Designjet printers have shipped to locations around the world, making HP Designjet the leader in the market with the widest range of large-format printers for design professionals, whether they're in single or multiuser environments.

Continuous innovation and established leadership in the large-format printing industry requires rigorous R&D and manufacturing processes, strong commitment to industry standards, and constant forward thinking, as well as regularly gathering customer insights to help improve products and introduce new innovations.

That's why HP Designjet printing is looking to the future—leveraging the cloud to find new ways to help design professionals do their jobs more effectively in a world that is becoming more digital, more mobile, and more social every day... but where paper remains the backbone of their workflows.

For more information, visit
hp.com/go/Designjet

¹ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.

Architecture, Engineering, and Construction

Print large-format drawings, schematics, renderings, and presentations with great ease, speed, quality, and low running costs. HP Designjet printers—they help build and grow business.

Customer profile:

- Architecture studios
- MEP (Mechanical, Electrical, and Plumbing) engineering teams
- Construction—general contracting departments and trade subcontractors and suppliers
- Topography studios
- Public works departments
- Property management/real estate agencies

Printing applications:

- Site plans
- Elevations
- Renderings and presentations

- Project presentation panels
- Tender documents
- Black-and-white line drawings
- Color drawings
- Schematics
- GIS maps

Printing needs met:

- Excellent line quality
- Consistent and accurate color
- Digital archiving, printing, and copying
- Fast, unattended printing
- Ease of use
- High productivity
- Economical
- Low cost per copy
- Web connectivity

Recommended hardware:

HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 Postscript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

Manufacturing, Automotive, and Transportation

Print big, so even the smallest details get noticed. Produce large-format plans, drawings, renderings, and more—easily, quickly, and with clear and vibrant quality. That's HP Designjet printing.

Customer profile:

- Mechanical CAD software users
- Industrial product and packaging design, manufacturing, and engineering departments
- General equipment design and manufacturing
- Medical and scientific equipment design, and manufacturing
- Automotive and transportation design and manufacturing departments
- Aerospace design, engineering, and manufacturing departments
- Ship building design, engineering, and manufacturing departments

Printing applications:

- Product and piece detailed plans
- 3D exploded view drawings and

- assembly plans
- 2D and 3D mechanical drafts and detail views
- Renderings
- Project presentations
- Digital archiving
- Network utility maps

Printing needs met:

- High productivity, low cost per copy
- Real-time project delivery
- Grayscale and color line accuracy and definition
- Consistent color
- IT integration to CAD environments
- Large memory to process complex files
- Unattended intuitive printing
- Web connectivity

Recommended hardware:

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet SD Pro Scanner

Infrastructure, Mapping, and GIS

Produce drawings, satellite and aerial photos, maps, and more that communicate clearly with excellent image and line quality. HP Designjet printers—see the big picture and everything in between.

Customer profile:

- Geographical data suppliers
- Commercial cartography services
- Environmental/conservation companies
- Oil & gas exploration companies
- Utilities companies (electricity, water/wastewater, gas distribution, telecommunication, etc.)

Printing applications:

- Civil engineering and construction documents
- Satellite and aerial photos

- Orthophotos
- Maps
- Natural resources and topology plans
- Radiation diagrams

Printing needs met:

- Digital archiving, printing, and copying
- Consistent and accurate color
- Ease of use
- Excellent image and line quality
- Fast, unattended printing
- High productivity, low cost
- Reliable colors
- Wide selection of media

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T520 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Public Sector and Corporate

Cope with the most demanding printing needs with HP Designjet large-format printing. From simple CAD drawings to complex color documents, high-speed HP Designjet printers deliver high-quality output and integrate easily into your IT infrastructure, taking the pressure off—big time.

Customer profile:

- SME businesses
- Corporate businesses
- Multi-national corporations
- Banking institutions
- Associations
- Public institutions
- Government

Printing applications:

- Engineering documents
- Presentation panels
- Project schedules

- 3D prototypes

Printing needs met:

- Ease of use
- Quick ROI
- Educational support materials
- Facilities management diagrams
- High productivity, low cost per copy
- Professional presentations
- Real-time project delivery
- Digital archiving, scanning, and copying

Recommended hardware:

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Print Service Providers

Be ready to meet any customer demand with large-format HP Designjet printers optimized for production environments. With fast speeds and exceptional print quality you can respond quickly no matter the job, providing opportunity for increased revenues and margins.

Customer profile:

- Large quick printers, sign shops, and copy shops
- Small PSP
- Medium and large PSP

Printing applications:

- POP/POS
- Light boxes
- Color proofing
- Canvas, decorative vinyls, and other indoor decoration applications
- Indoor exhibition and events banners and applications
- In-store signage for retail

- Fine art gallery-quality and canvas

Printing needs met:

- Color accuracy
- Quick ROI
- Faster turnaround times
- High quality at production speeds
- Media versatility
- Easy maintenance
- Safe to be used for indoor environments like, education, hospitality, health care, restaurants, and home

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Recommended software:

HP Designjet SmartStream

Repro Houses

Print high-quality color plans and renderings at a low cost. Enjoy high-speed unattended printing and offer more application options to your customers.

Customer profile:

- Architecture, engineering, and construction companies
- GIS
- Infrastructure planning and public sector enterprises
- MCad
- Architecture and engineering students, and education institutions

Printing applications:

- Black-and-white/color line drawings
- AEC sets of project/construction plans
- CAD drawings
- Project presentation panels
- Renderings and presentations
- CAD drawings

Printing needs met:

- Large memory capacity for printing sets of plans in high-volumes both quickly and unattended
- Faster turnaround times
- Full solution integration with folder, stacker, scanner, and software
- Low cost production
- Quick ROI
- IT integration
- Web connectivity to attend and deliver remote jobs
- Print multiple jobs on a variety of media types and sizes with two (or three) rolls and smart switching

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T7200 Production Printer, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Recommended software:

HP Designjet SmartStream

Quick Printers

Do and offer more with HP large-format printing solutions that are easy, flexible, fast, cost-effective, and—best of all—big. They also deliver stunning results that can keep your customers coming back for more.

Customer profile:

- On demand miscellaneous jobs
- Local business and retailers applications, pricing, and communications
- Walk in non-professional photography and seasonal decoration requests (posters, banners, small signage)

Printing applications:

- On demand miscellaneous jobs
- Posters
- Backlit prints
- Photos
- Canvas and home décor applications

- Business POP and retail applications
- Banners
- Small signage
- Pricing signs and menus

Printing needs met:

- Wide variety of substrates available
- Consistent color reproduction
- Low cost per copy
- Longevity
- Ease of use
- Fast turnaround
- Quality print

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet SD Pro Scanner

Graphic Design Studios

Show off your digital design with large-format proofs and presentations that mirror the image on your screen. HP Designjet printers—pushing the limits of design.

Customer profile:

- Graphic design studios
- Advertising and marketing agencies and departments

Printing applications:

- Project bids
- Concept development
- Visual presentation
- Design competitions and mock-ups
- Final presentations
- Digital concept proofing
- Posters

Printing needs met:

- Ease of use with graphic software applications
- Mac compatibility
- Image quality
- Color accuracy and management
- Media flexibility
- Fast turnaround
- Low-risk investment
- Low cost per copy

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

Professional Photography

Bring your vision to life with large-format photographs and displays. HP Designjet printers make it easy to share and promote your work—with quality and accuracy that remains true to your vision.

Customer profile:

- Social, wedding, and portrait photographers
- Commercial photographers
- Fine art photographers

Printing applications:

- Photo printing
- Proofing
- Portfolio

Printing needs met:

- Enables adoption of digital technology
- Flexibility for different workflows (portfolio, final print, and proofing)

- Fast turnaround
- Photo quality (brilliance, saturation, and sharpness)
- Longevity
- Color fidelity
- Rich blacks and neutral greys
- Ease of use
- RGC, CMYK emulations
- Color consistency
- PANTONE® emulation

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

Fine Art

Produce fine art prints and reproductions that demonstrate strict color accuracy and very high quality. HP Designjet printers—because artistic integrity is a big deal.

Customer profile:

- Artists
- Photographers
- Fine art reproduction
- Museum shops
- Graphic designers
- Interior designers

Printing applications:

- Exhibition prints for museums and art galleries
- Canvases
- Portfolio work
- Reproduction
- Design competitions
- Posters and display
- Giclée

Printing needs met:

- Outstanding quality
- Color accuracy across printers and across lighting conditions
- Faithful reproduction
- Wide color gamut
- Grain—less pale and light tones
- Rich black and neutral greys
- Longevity
- Ease of use with graphic software applications
- Mac compatibility
- Media flexibility
- Low cost per copy

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

In-store signage

Tailor your message to customers in each and every store with fresh, relevant large-format promos and displays delivered on-demand. HP Designjet printers—for signage that speaks to customers in a big way.

Customer profile:

- Small and medium local business and shops
- Large department stores
- Do-it-yourself stores
- Hypermarkets/supermarkets
- Furniture/DIY stores
- Clothing, furniture, and grocery stores
- Garage forecourts
- Garden centers
- Restaurants and pubs

Printing applications:

- POP/POS
- Decorative graphics
- Price signs
- Sales and promotions

Information signs

- Window and door signage
- Promotional/event signage
- Advertisements
- Super-sized menus

Printing needs met:

- Short- and long-term indoor signage
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Personalization/regionalization of message
- Ease of use
- Flexibility of output – different media types and size
- Fast turnaround, quick ROI

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet T7200 Production Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T520 ePrinter, HP Designjet HD Pro Scanner

Education

Growing minds think big. Encourage learning with large-format signs used for teaching, everyday communications, and more. HP Designjet printers—helping students make the grade.

Customer profile:

- Associations
- Schools
- Colleges and universities
- Youth groups
- Special needs

Printing applications:

- Banners
- Signage
- Decoration
- Vocational (arts) presentations
- Presentations
- Weekly, monthly, and year planners
- Posters and displays

Design competitions

- Portfolio work
- Educational support materials

Printing needs met:

- Intuitive and easy to use
- Web connected
- Compact
- Affordable and low maintaining needs
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Cross-platform compatibility
- Low investment
- Time and cost saving

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

HP Designjet Portfolio

Office - CAD & GIS

For AEC, GIS, and MCAD professional users and workgroups who want to print maps, technical drawings, posters, and renderings with precise, accurate line quality, and crisp text.

HP Designjet T2500 eMultifunction Printer series
Newly designed, two-roll, web-connected ePrinter with scan and copy capabilities

36 inch (914 mm)

HP Designjet T1500 ePrinter series
Newly designed, two-roll, web-connected ePrinter for demanding teams

36 inch (914 mm)

HP Designjet T1300 PostScript® ePrinter
Reliable, web-connected, 44-inch PostScript ePrinter for GIS

44 inch (1118 mm)

HP Designjet T920 ePrinter series
Newly designed, web-connected ePrinter with breakthrough usability

36 inch (914 mm)

HP Designjet T795 ePrinter
Web-connected 44-inch ePrinter for small and medium workgroups

44 inch (1118 mm)

HP Designjet T790 ePrinter series
Web-connected 24-inch ePrinter for small and medium workgroups

24 inch (610 mm)

HP Designjet T520 ePrinter series
Professional, web-connected, 24- and 36-inch printers

24 inch (610 mm) / 36 inch (914 mm)

HP Designjet T120 ePrinter
An easy-to-use, web-connected 24-inch printer

24 inch (610 mm)

Graphics

For quick printers, digital print service providers, professional photographers, and graphic designers who want to create high-impact indoor prints consistently and accurately.

HP Designjet Z5400 PostScript® ePrinter
The first multi-roll ePrinter for graphics to produce high-quality, long-lasting prints efficiently

44 inch (1118 mm)

HP Designjet Z5200 Photo Printer
Professional 8-ink PostScript printer designed for outstanding graphic applications

44 inch (1118 mm)

HP Designjet Z3200 Photo Printer series
The most advanced 12-ink printer¹ for gallery-quality prints

24 inch (610 mm) / 44 inch (1118 mm)

HP Designjet Z2100 Photo Printer series
HP's affordable 8-ink printer to produce durable prints

24 inch (610 mm) / 44 inch (1118 mm)

Production

For large workgroups and departments, print service providers, repro houses, and quick printers who want to print anything from simple CAD drawings to complex color documents with high speed and outstanding image quality.

HP Designjet Z6800
Photo Production Printer
 Fastest 60-inch graphics production printer with unrivaled print quality²

60 inch (1524 mm)

HP Designjet Z6600
Production Printer
 The fastest 60-inch graphics production printer with efficient operation²

60 inch (1524 mm)

HP Designjet Z6200
Photo Production Printer
 Fastest 42-inch graphics production printer with unrivaled print quality

42 inch (1067 mm)

HP Designjet T7200
Production Printer
 Proven color production solution with low cost of ownership

42 inch (1067 mm)

HP Designjet T3500
Production eMFP
 The most productive large-format color MFP⁴—prints up to size E/A0

36 inch (914 mm)

HP Designjet SmartStream
 Professional software that cuts job preparation time by up to 50%⁵

¹ The 12-inch HP Designjet Z3200 Photo Printer is the most advanced printer compared with other HP Z-series printers.
² Compared with large-format inkjet printers under \$25,000 USD for graphic applications. Based on the fastest-rated color speeds as published by manufacturers as of October 2013. Test methods vary.
³ Compared to large-format inkjet printers under \$25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.
⁴ Compared with large-format color MFPs under \$25,000 USD. Based on the fastest-rated color speeds as published by manufacturers as of January 2014. Test methods vary.
⁵ Conclusion based on an HP internal test measuring the time required to extract pages from a 50-page document and print them using several printers compared with using equivalent software programs.
⁶ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. For more information, visit hp.com/go/eprintandshare.

Scanners

For enterprises, repro houses, GIS firms, and AEC professionals who want to scan and copy photos, documents, and maps, fast and accurately.

HP Designjet SD Pro Scanner
 High-productivity scanner for fast and detailed document reproduction

44 inch (1118 mm)

HP Designjet HD Pro Scanner
 High-definition scanner for excellent color accuracy and image reproduction

42 inch (1067 mm)

Choose a printer depending on the type of application

Whether you're printing large-format CAD drawings, maps, renderings, and presentations, event graphics or fine art prints, HP Designjet printers can make it happen. The chart below identifies the application range for each HP Designjet printer, so it's easy to identify the printer that best fits your needs.

HP Designjet T3500 Production eMFP

The most productive large-format color MFP¹—prints up to size E/A0

Printer size:	36 inch (910 mm)		
PostScript versions available:	✔ (through PostScript upgrade)		
Print resolution:	Up to 2400 x 1200 optimized dpi		
Print speed line drawings²:	21 sec/page on A1/D, 120 A1/D prints per hour		
Memory:	Intel Core i5M-260 processor, 128 GB (virtual) ³ , 500 GB hard disk (AES-256 encrypted, FIPS 140-2 Level 2 certified)		
Connectivity:	Interfaces (standard): High-Speed USB 2.0 certified host connector, Gigabit Ethernet (1000Base-T), supporting the following standards: TCP/IP, BootP/DHCP (IPv4 only), DHCPv6, TFTP (IPv4 only), SNMP (v1, v2c, v3), Apple Bonjour Compatible, FTP, WS Discovery, Embedded Web Server (HTTP, HTTPS), IPsec, SMTP (e-mail), Raw IP printing (9100, 9101, 9102), LPD, IPP, WS print, NTLM, NTLM v2, SSL/TLS, 802.1X authentication (WEP, WPA, WPA2, LEAP, PEAP, EAP-TLS) Print languages (standard): HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4, HP PCL 3 GUI Drivers (included): HP-GL/2, HP-RTL drivers for Windows; HP PCL 3 GUI driver for Mac OS X; PostScript Windows and Mac drivers with optional PostScript/PDF Upgrade Kit. Compatible with HP Designjet Universal Print Driver for HP-GL/2 and HP Designjet PostScript/PDF Upgrade Kit		
Web connectivity:	✔		
Wi-Fi certification⁴:	—		
Media Handling:	Input: Two automatic front-loading roll feeds; smart roll switching; rolls up to 200 m (650 ft) each; sheet feed Output: integrated output stacker (from A4/A to A0/E, with up to 100 A1/D-size capacity); basket; automatic cutter Scanner: straight-through scan paper path for sheet and cardboard originals		
Inks:	Dye-based (C, M, Y, G, PK, Y); pigment-based (mK) 6 pl (C, M, Y, G, PK); 9 pl (mK)

¹ Mechanical printing time. Printed in Fast mode using HP Bright White Inkjet Paper (bond) and Original HP inks.
² Mechanical printing time. Printed in Fast mode using Original HP inks.
³ Based on 1 GB RAM. Expandable to 1.5 GB RAM through an HP Designjet qualified SODIMM included only in the optional HP Designjet PostScript/PDF Upgrade Kit accessory.
⁴ Wireless performance is dependent on physical environment and distance from access point, and may be limited during active VPN connections.
⁵ BMG trademark license code FSC®-C115319, see fsc.org. HP trademark license code FSC®-C017543, see fsc.org. BMG trademark license code PEFC™/29-31-261, see pefc.org. HP trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC® or PEFC™-certified products are available in all regions. For information about HP large format printing materials, please visit globalBMG.com/hp.
⁶ Can be recycled through commonly available recycling programs. HP Universal Satin Photo Paper can be recycled according to region-specific practices. In North America and Asia (including Japan), recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area); in Europe recyclable in consumer collection systems that accept liquid packaging.
⁷ HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See globalBMG.com/hp/lecollections for details.
⁸ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.
⁹ Not available in Europe, Middle East, and Africa.
¹⁰ Only available in Asia Pacific and Japan.
¹¹ Not available in Asia Pacific and Japan.
¹² Not available in Europe, Middle East, and Africa.
¹³ Availability of service packages and specifications may vary by product and country. For more information visit hp.com/go/designjetsupport.
¹⁴ Only available in North America, Latin America, Asia Pacific and Japan.

Color is the new black.

Prints up to E/A0-size

Meet all your black-and-white and color needs with the HP Designjet T3500 Production eMFP. The most productive large-format MFP¹ offers advanced copy and scan features and low-cost, unattended operation. Built for rigorous IT demands and top security.

Find out more: hp.com/go/DesignjetT3500

¹ Compared with large-format color MFPs under \$25,000 USD. Based on the fastest-rated color speeds as published by manufacturers as of January 2014. Test methods vary.

HP Designjet Scanners

HP Designjet SD Pro Scanner

High-productivity scanner for fast and detailed document reproduction

Scan speed¹:	Color: up to 15 cm/sec (6 in/sec) Grayscale: up to 33 cm/sec (13 in/sec)
Enhanced resolution:	9600 dpi
Optical resolution:	1200 dpi
Maximum scan:	Width: 1118 mm (44 in) Thickness: Up to 2 mm (0.08 in)
Scan input modes:	On the touchscreen: scan preview, scan to file, scan to email, scan to USB, scan to print, scan to FTP, copy, batch scanning, batch copying
Copier settings:	Type of original image crop and align preview, lightness, saturation and RGB controls, white point and black point adjust, sharpen/blur, mirror copy, enlarge/reduce, paneling, tiling, nesting, accounting, batch, multipage PDF generation
Media types:	Non-abrasive paper, vellum, Mylar, sepia, blueprints, plastic, film, plastic laminate, foam board, cardboard, newspaper, tracing paper (no plywood, stone plates, metal plates or abrasive, dirty, rough, sharp edged, metal clamped, or burned surfaces or transparencies)
Media handling:	Straight-through scan paper path for sheet and cardboard originals
Memory:	2 GB ² memory, 500 GB ³ hard disk
Connectivity:	Interfaces (standard): Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified Drivers (included): Windows drivers for compatible HP Designjet Printers

HP Designjet Technologies

HP Designjet ePrint & Share¹

Experience cloud printing from virtually anywhere—a conference room, the job site, or even home—using HP Designjet ePrint & Share. This free web service makes it easy to access, view, and print large-format documents, using your tablet, smartphone, laptop, or even your ePrinter's touchscreen from virtually anywhere.¹

- Automatically save a copy of your prints in your online print history so it's easy to retrace the progress of your work.
- Access, view, and reprint files from your online print history.
- E-mail projects to your ePrinter and print.
- Conveniently share files stored in your online print history with an automatically generated hyperlink.
- Use your email to send print-ready files to print on your HP Designjet ePrinter.
- Access multiple FTP sites in one place, so it's easy to view and print all your files.
- Scan and share files through email from your HP Designjet T2500 eMFP's touchscreen using HP Designjet ePrint & Share.¹
- Help keep your projects safeguarded with trusted HP security features.

For more information, visit
hp.com/go/eprintandshare

Start printing your large-format documents from virtually anywhere, visit: hp.com/go/eprintandshare and download the mobile app from the App Store and Google Play.

¹ Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.

HP Designjet Universal Print Driver

Provide IT teams with greater control and effectiveness, reduce printer-related costs, and improve IT and end-user productivity with the HP Designjet Universal Print Driver (UPD). This intelligent single-driver solution radically simplifies printer deployment and management, saving time and freeing IT to focus on innovation. HP Designjet UPD includes two drivers—HP-GL/2 and PostScript—and supports a broad range of HP Designjet printers.²

Simplify printing and management

- Remove much of the time and hassles associated with installing, updating, and testing multiple drivers.

Reduce fleet management costs

- Reduce costs associated with traditional print driver installation, updates, and testing.
- Save money by reducing the amount of time IT must spend on printer integration, management, and maintenance.
- Cut down on help desk-related costs with a simplified single-driver solution.

Focus IT efforts on innovation

- Keep your system up-to-date.
- Transition IT resources from integration to innovation.

Empower IT teams by dramatically reducing the number of drivers they have to manage. Give them the tools they need to improve efficiency and significantly cut costs. Simplify printing for end users and more effectively manage your overall fleet today.

HP Designjet Accounting tool

Build efficient accounting, facility management, and onsite services with HP certified accounting solutions for HP Designjet printers. Take advantage of advanced accounting features, remotely track ink and media use to help monitor costs on a print-by-print basis, and view customer accounts quickly and easily. Printers can automatically send usage reports via e-mail that you can manage through a free Microsoft® Excel template provided by HP. You no longer have to contact customers or visit their sites to obtain the information needed for precise invoicing.

To see more features and compatible printers, visit
hp.com/go/Designjet/accounting

² Supported HP Designjet printers include HP Designjet T120 ePrinter, HP Designjet T520 ePrinter series, HP Designjet T790 ePrinter series, HP Designjet T795 ePrinter, HP Designjet T920 ePrinter series, HP Designjet T1300 PostScript® ePrinter, HP Designjet T1500 ePrinter series, HP Designjet T2300 eMultifunction Printer, HP Designjet T2500 eMultifunction Printer series, HP Designjet T3500 Production eMFP, HP Designjet T7100 Printer, HP Designjet T7200 Production Printer (in Europe, the Middle East, and Africa, the HP Designjet T7200 Production Printer will be available in fall 2014), HP Designjet Z5400PostScript® ePrinter, HP Designjet Z6200 Photo Production Printer, HP Designjet Z6600 Production Printer, and the HP Designjet Z6800 Photo Production Printer.

HP technology leadership

Original HP Vivid Photo Inks¹

Create impressive long-lasting images in color and black-and-white with rich optical density and smooth transitions using **HP Vivid Photo Inks**. Print on many substrates to deliver a wide range of jobs such as posters, canvas prints, and POP signs. HP Designjet printheads are designed together with HP Vivid Photo Inks to provide precise, accurate placement of smaller drops and high speed. Each printhead prints two colors of ink with 1,056 nozzles per color.

Using **HP chromatic red ink**, your HP Designjet printing system provides the broad color gamut needed to produce vibrant color and deep, rich blacks and to achieve true photo-realistic image quality.

High, **uniform gloss** provides the professional finish. With a wide range of blacks and grays with smooth, subtle transitions, true gray neutrality, and rich black density, you can produce remarkable B&W prints. And these prints provide lasting results with exceptional print permanence indoors in-window and away from direct sun.²

Outstanding speed¹

HP Double Swath Technology provides breakthrough speed and performance. The HP Designjet Z6200 and the HP Designjet Z6800 Photo Production Printer include two sets of four HP 771 Designjet Printheads, and the HP Designjet Z6600 Production Printer includes two sets of three HP 771 and HP 773 Designjet Printheads creating a wide print swath—up to 1.67-inches/42.5 mm—and a high firing frequency to deliver prints with amazing speed.

Eight bi-color printheads for the HP Designjet Z6200 Photo Production Printer, six bi-color printheads for the HP Designjet Z6600 Production Printer and eight bi-color printheads for the HP Designjet Z6800 Photo Production Printer feature 1,056 nozzles per color, 1,200 nozzles per inch, and small drop volumes for top photo quality.

The HP Optical Media Advance Sensor (OMAS) allows you to print at top speeds and still get great output results. This breakthrough technology improves paper-advance control and accuracy, so the printer can print at higher speeds across multiple environmental conditions without impairing image quality.

¹ Features and availability vary by printer.
² Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab, and by Wilhelm Imaging Research, Inc. on a range of HP media. For more information, see global.BMG.com/hp/printpermanence.

Amazing color¹

The **HP Embedded Spectrophotometer**, with i1 Color Technology from X-Rite, is mounted on the printer carriage for accurate printer calibration measurements that deliver print-to-print and printer-to-printer color consistency and accuracy.

High productivity¹

The **HP Easy Printer Care Tool** lets you easily navigate through color-management, printing, and job management workflows, and the **HP Color Center** provides easy-to-use, step-by-step instructions on how to add new media and calibrate the printer.

HP Instant Printing PRO allows you to quickly preview, crop, and print in large format using one simple tool, providing a quick and easy way for reprographic and copy shops to print in large format. You can easily manage your files from one single application. HP Instant Printing PRO enables true print confidence. Avoid printing on the wrong-sized media with a realistic print preview.

Certified RIPs

Our RIP certification program defines a comprehensive set of compatibility criteria aligned to the highest performance standards and the unique capabilities of HP Designjet printers. Only third-party companies that have demonstrated conformance with these criteria are awarded HP Designjet certified status.

HP has certified a number of third-party Raster Image Processors, enabling additional control over elements such as color management, ICC profile management, tiling and nesting, support of multiple printers and optimizing Pantone and spot color.

To view RIP compatibility, please visit hp.com/go/DesignjetRIPs

HP Designjet SmartStream

The most productive technical printing software designed for highly demanding environments that offers complete PDF management, creates accurate and error-free printouts, and reduces preparation time by up to 50% on complex jobs.¹

True PDF management to boost productivity

Repro houses and enterprise customers with their own central reprographics departments (CRDs) or large print rooms looking for correct and easy PDF management waste a lot of time when managing PDF files. They spend hours converting PDF files into TIFF files because their current software cannot handle PDF files, processing times are very slow, and they are still left with errors that take operator time and skill to rectify.

HP Designjet SmartStream offers true PDF management, ensuring a fully reliable reproduction of your PDF files thanks to the **Adobe PDF Print Engine 3**.² It eliminates the need to convert PDF files into TIFF files and reduces the time operators spend solving PDF issues, achieving a higher-speed of rendering, even for the most complex PDFs.

Cut job preparation time by up to half³

With **HP Designjet SmartStream**, you can reduce up to 50% of the job preparation time on multipage jobs,³ and manage with one single-screen view that provides all the information at a glance for your entire printing workflow. A user-friendly interface enables you to easily process large jobs while getting fast and accurate previews from complex PDFs. Also, HP Designjet SmartStream software is able to connect simultaneously to more than one HP Designjet production printer, allowing you to easily prepare and send jobs to any one of them.

Gain total control of your technical printing workflow

HP Crystal Preview Technology shows what and how content will be printed with accuracy so that you can avoid reprints. Soft proofing is a mechanism that allows you to view, on your computer monitor, just how your print will look when it is on paper. That paper, ink, and mode combination has been defined by the profile included in your printer. So, by using HP Crystal Preview Technology, you will be able to see how the image will be reproduced, taking into account the gamut as well as other characteristics of the inks used.

The HP large format printing system: The complete solution

HP Designjet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a complete, efficient system to provide productivity, quality, consistency, durability, and value—even when printing highly complex jobs—with every print.

Original HP inks and HP large format printing materials

Whether your project calls for dye-based or pigment/UV-based inks, HP has the right ink for you. The unique chemistry between Original HP Designjet inks and HP large format printing materials—together with the carefully engineered interaction between the two—make exceptional results possible, from uniform fills to crisp text and sharp lines.

For more information on HP inks, visit
hp.com/go/OriginalHPInks

For more information on HP large format printing materials, visit
globalBMG.com/hp

HP Designjet Printers and the environment

Take advantage of free, convenient return and recycling of most Original HP Designjet ink cartridges and printheads.¹ HP's "closed loop" recycling process uses recycled plastic from HP ink cartridges to create new Original HP ink cartridges.²

Energy-efficient printers can reduce environmental impact and reduce costs. They also produce less heat and reduce cooling loads, which can make your work environment more pleasant. Most HP Designjet printers are ENERGY STAR certified, which assures that they meet strict energy efficiency guidelines without sacrificing performance—or your productivity.

HP Support Services

HP Designjet Support Services offer solutions that maximize the performance of your HP large format printing solution, while protecting your investment in the technology.

¹ Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.

² For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams.

Choose from installation and maintenance services or up to 5 year support coverage with warranty experience at no extra costs for the duration of the contract.
